The Washington County Arts Council is pleased to announce that Gaye McGovern has joined its board of Directors. Ms. McGovern is the owner of Gaye McGovern Insurance Agency Inc.

In 2009, the Herald Mail wrote, "To some, Gaye McGovern is simply their insurance agent - owner of Gaye McGovern Insurance Agency Inc. - whose office is just east of town, off Robinwood Drive. To others, she's a mover and shaker in Hagerstown's business world....A member of St. John's Episcopal Church in Hagerstown, McGovern, ... is involved in an array of community organizations and has served on the boards or advisory committees for more than 15 organizations."

Ms. McGovern was a superintendent for East Palestine City School District in East Palestine, Ohio, before she became an insurance agent in Hagerstown. Ms. McGovern worked for a State Farm agent while she attended the University of Pittsburgh. McGovern met her future husband in college and worked for his father, a State Farm agent, while still in school.

"When McGovern established her Hagerstown office in 1987, she ended a 24-year career in public education. Throughout that career, she's been a teacher, principal, director of instruction, director of pupil personnel services and superintendent of schools."

In September 2009, the Hagerstown-Washington County Chamber of Commerce named McGovern, a former Chamber president, as business volunteer of the year. Ms. McGovern is a member of the board of Advisors of the University System of Maryland Hagerstown. She is also a member of the Hagerstown Rotary Club and is on the Washington County Hospital's quality control committee.

As selected artists bring more pieces for display in the exhibit galleries each month and as additional regional artists want to display in The Gallery Shop, WCAC has a need for additional rods and clips.

Friday, April 15, 2016 at 6 PM - 8 PM

Bruce Wilder, a photographer who works in both film and digital, picked up his first camera at the age of twelve. Within a decade, he began processing his own negatives and prints. While black and white photography launched his passion, the digital medium expanded his vision, allowing him to produce art images in color.

Now merging technology and art, Mr. Wilder has explored HDR. High Dynamic Range imagery enables him to create photographs with a greater dynamic range by combining several images of different exposures. Mr. Wilder believes the artist's choice defines his potential. He embraces the diversity of photographic art, its endless possibilities whether dramatic black and white, dreamy monochrome, brilliant color or visions enhanced with creative digital manipulation.
